It is all over the news—Swine Flu has reached more than 25 countries and affected hundreds of thousands of people regardless of sex and age. Unfortunately, the virus continues to spread and continues to threaten the normal services and processes of different social institutions. The virus has paralyzed universities, public offices and even private companies. On the bright side of this pandemic attack, different organizations could easily prevent outbreaks with proper education about the virus and effective hygiene products and services. The latter is offered by Biokleen, a company which offers these with great quality and cost.

Here are some of the Biokleen products that could make your workplace safer and free from viruses:

From L-R: Anti-bacterial Liquid Hand Soap and Automatic Dispenser, Automatic Air Sanitizer, Hand Dryer, Anti-Bacterial Cleaner

1. **Anti-bacterial Liquid Hand Soap and Automatic Dispenser.** The most basic way to prevent the spread of viruses is proper hand washing with an anti-bacterial soap. This liquid hand soap is contained in an automatic dispenser to prevent the spread of bacteria and viruses.
2. **Automatic Air Sanitizer.** Some bacteria are airborne or could easily spread through air. With Biokleen's automatic air sanitizer, airborne bacteria won't reach your human resources.
3. **Biokleen Hand dryer.** Diseases spread and thrive easily on wet places or even on wet body parts. Having a Biokleen Hand Dryer would reduce the threat of thriving viruses.

4. **Bioplus Anti-bacterial Cleaner.** Daily washroom cleaning would be a good habit for your sanitary specialists but water and some scrubbing can only do so much. Bioplus Anti-bacterial cleaner would ensure a 99.99% bacteria and virus-free washroom!

Here are some recent testimonials from our satisfied clients:

“The swine flu virus and other viral diseases at that have never been too much of a scare for us. With Biokleen’s products and services, we are able to show the Filipino people that going to malls is still a safe practice”

-Ms. Malou Rhom, *Mall Manager*, Robinson’s Place Ermita

“As an entertainment and broadcast company, we are expecting tons of people to line-up every day to see our shows and even our celebrities. With Biokleen, we feel confident that our staff, *Kapuso* stars and their fans would be safe from different viruses”

-Mr. Ronald Esmeralda, *Head of Housekeeping*, GMA Network Center

The Lowdown

This is not about another unnecessary luxury—this is about your employees’ safety and the company’s overall productivity and immunity. Protect your people and show them that you care with Biokleen Care.

About Biokleen

Biokleen Hygiene Solutions is a company that specializes in hygiene services and markets and sells hygiene products. The company is a relatively new one (established last 2007) but key managers and staff have experience in the hygiene industry for 15 years already. The products the company sells come from Calfarme Singapore, the world leader in hygiene products manufacturing. You may reach the company through these contact details:
